* Speed depends on materials, thread and operation.

APPLICATIONS

- Designed to close bags made of such materials as jute, cotton, linen, paper, burlap, plastic and waterproofed materials
- Suitable for plain and folded top closures
- Used by packers of flour, grain, fertilizer, feed, chemicals, seed, coffee, sugar, salt, grocery staples, minerals and other products

FEATURES

- Portable
- Uses standard needles
- Uses popular type thread cones
- Protected cutting blades sever the thread after the bag is closed
- Easily adapted for stationary or suspended use without loss of portable features
- Starts sewing any thickness without raising presser foot

Specifications subject to change without notice.
