

CONSEW "BIRDIE" Model RS-50SP

The Birdie **RS-50SP** is a lightweight yet powerful rotary shear that lets you cut fabric with incredible ease and accuracy.

THE MAINTENANCE FREE BIRDIE comes with built-in sharpener and safety features.

The Birdie is excellent for narrow curves and sharp corners. For cutting single and low lays of material including cloth, knitted fabrics, plastics, synthetics, leather, lace, fiberglass, vinyls, etc.

Used for slitting and trimming knitted fabrics when base plate is removed.

Features:

- Lightweight and Powerful.
- Grip-style Switch Bar - automatically stops when NOT pressed.
- Fast, accurate Scissor Action Cuts - ensured by carbide blade.
- No fusing or "Pull In" of materials.
- 7-Sided High-Speed Steel Blade - easy to change and longer lasting.
- Removable base plate - allows "off the table" operations such as slitting.
- Impact Resistant Casing.
- Shock Protection - double insulated against electrical shock.
- Shielded Ball Bearings - require no lubrication or servicing and ensures free and quiet operation.
- Built in sharpener.
- 10 Ft. electrical cord with additional safety switch.

Machine Specifications:

Weight	- 21 ounces
Blade Size	- 1-7/8"
Cutting Depth	- 7/16" (Max.)
Electrical	- 110 V.A.C. (220V on Special order basis)
